Sensors

Heart beat/SPO2 sensor

MAX30100

Incubator ambient temp.

2-3 x DS1624

Baby body temperature sensor

2 x TSIC506/ MAX30205

Humidity sensor

1 x DHT11

Air oxygen sensor

LOX-02

Temperature and Humidity controlling

Heater

Humidifier

MCU

Display screem

Active low pass filter

HX711

Load cell compensating for moving baby

Heater

MCU

Relay

AC Heater element

Heat flows through air. Enters trhough one inlet and exits through other outlet

Humidifier

MCU

Stepper motor to contol humidity inlet

AC Heater element with Relay close to water

Fan to push humid air to baby hood
